

ANNUAL MEETING & POSTGRADUATE COURSE

# Atlanta, Georgia

OCTOBER 23–26, 2014

## REGISTRATION BROCHURE

**CPNP** **NASPGHAN**  
COUNCIL FOR PEDIATRIC  
NUTRITION PROFESSIONALS

**NASPGHAN**

 **APGNN**  
The Association of Pediatric Gastroenterology and Nutrition Nurses

Dear Colleagues:

We invite you to attend “The NASPGHAN Annual Meeting and Postgraduate Course” to be held in Atlanta, Georgia, from Thursday, October 23—Sunday October 26, 2014 at the Hilton Hotel. The planning committee has put together an outstanding program that will engage the interest of clinicians, academicians, nurses, nutrition and allied health professionals, and trainees alike.

The meeting will begin on Thursday, with our one day Postgraduate Course, organized by the Professional Education Committee (led by Drs. Melanie Greifer and Jennifer Strople). The course will provide a comprehensive overview of pediatric endoscopy, hepatology, nutrition, intestinal inflammation and motility disorders. We will also have small group learning luncheons that will provide more in-depth case based discussion of difficult patients with functional GI disorders, complications of IBD, jaundice, liver failure, and in need of interventional endoscopy.

The Annual Meeting will begin at 5 pm Thursday evening with a Welcome Reception and the first Poster Session, as well as the Professional Development Session, organized by Dr. Benjamin Gold. This is a symposium open to all attendees, whose theme this year will be “glass ceilings”.

On Friday and Saturday morning during the plenary sessions, the best laboratory and clinical science abstracts will be presented. The Keynote speaker this year will be Dr. Brennan Spiegel, an adult gastroenterologist from UCLA, who is an engaging speaker and a world leader in the field of outcome measures. Drs. Barnard and Balistreri will present their very popular Basic and Clinical Science Year in Review sessions.

This year, we have increased the number of abstract-based research sessions to 8 and these sessions will continue to host a state-of-the-art presentation given by an expert in the field. We have added a video session with abstract presentations, which will also include a special video on the history of pediatric endoscopy produced by Dr. Fishman. There will be 7 invited-speakers sessions, including two “Hot Topics”, and two debates with speakers discussing the ideal timing for portal hypertension treatment and when to start biologic agents in IBD. The virtual session this year will focus on celiac disease and will be chaired by Dr. Ivor Hill. The Hands-on Endoscopy course will be run by Dr. Marsha Kay, and Dr. Joe Croffie will direct the Hands-on Motility course which, this year will discuss anorectal manometry. Another session will continue to update clinicians on the nuances of correct billing and coding. According to the multicultural spirit of the meeting, we will continue to have a NASPGHAN meeting and reception in Spanish, on Friday evening. On Sunday morning, we will have a Research Skills Workshop with the participation of many of the most accomplished clinical and bench researchers in our specialty. On Friday morning, we are planning to have our first 5K run, an event that we hope will become a tradition of future NASPGHAN meetings.

There will be 21 breakfast sessions (2 in Spanish) which will facilitate more intimate interaction between speakers and society members. Following up on the success of last year, we will have a parallel Nutrition Symposium aimed at dietitians, organized by Dr. Praveen Goday. It will be held on Saturday from 8 am—4:00 pm. Finally, the meeting will end with the tremendously entertaining and instructive GI Jeopardy for Fellows and Faculty and the greatly fun and nutritious social program!

Athos Bousvaros MD  
President, NASPGHAN

Carlo Di Lorenzo MD  
President-Elect, NASPGHAN

## ORGANIZING COMMITTEE

Carlo Di Lorenzo MD (NASPGHAN President-Elect)	Program Committee Chair
Doug Fishman MD (Chair, Endoscopy Committee)	Endoscopy sessions
Benjamin Gold MD (Chair, Professional Development Committee)	Professional Development session
Praveen Goday MD (Chair, Nutrition Committee)	Dietitians symposium
Melanie Greifer MD (Chair, Professional Education Committee)	Postgraduate Course, Co-Director
Neera Gupta MD (Chair, Research Committee)	Annual Meeting
James E. Heubi MD (NASPGHAN Secretary-Treasurer)	Meeting budget
Alfredo Larossa Haro MD (Mexican Councilor)	LASPGHAN Program
Ian Leibowitz MD (Chair, Clinical Care and Quality Committee)	Clinical Vignette Posters
Adam Noel MD (Chair, Clinical Practice Committee)	Billing & Coding, Practitioners' Forum
Miguel Saps MD (Chair, International Committee)	LASPGHAN Program
Cary Sauer MD (Chair, Training Committee)	Teaching and Tomorrow Program
Jen Strople MD (Vice Chair, Professional Education Committee)	Postgraduate Course, Co-Director
Athos Bousvaros MD (NASPGHAN President)	Program Advisor

## HOTEL INFORMATION

### Hilton Atlanta

255 Courtland Street NE

Atlanta, Georgia, 30303

Phone: 1-404-659-2000/1-800-Hiltons

**Hotel Reservation Deadline** ..... October 1, 2014

**Room Rates** ..... Single/Double: \$179.00

*Special NASPGHAN room rates. Applicable taxes will be added. (US rate subject to change based on current exchange rates).*

**Check-in Time** ..... 3:00 PM

**Check-out time** ..... 12:00 NOON

*To obtain the special NASPGHAN room rates, register online via the NASPGHAN website. Click on the Annual Meeting 2014 link and click on make hotel reservations. Or, call the Hotel's Reservation line at 1-800-Hiltons and make sure to identify yourself as attending the NASPGHAN Annual Meeting and Postgraduate Course.*

**The Hilton Atlanta hotel boasts a central location in the heart of downtown Atlanta within walking distance of some of the best attractions in the city, including the Georgia Aquarium, CNN Center and the Georgia World Congress Center.** Hartsfield-Jackson Atlanta International Airport is just a 15-minute drive from our downtown Atlanta hotel. Swim in the outdoor pool and work out in the fully equipped fitness center. Stay fit on our downtown Atlanta hotel's outdoor tennis courts, full-sized basketball court or jogging track. Experience fine dining overlooking Atlanta's downtown skyline in Nikolai's Roof restaurant, or try a Polynesian cocktail at the Mai Tai bar in Trader Vic's.

### Transportation from Airport to The Hilton Atlanta Hotel

**From the Airport by the Subway (MARTA)** —Take the train north and exit at Peachtree Center Station. Take the John Portman Blvd. escalator or follow the directions for Peachtree Center Mall. You will go up a very steep escalator into the Mall. Take the walkway from the Mall to the parking garage. Take the elevator to the street. The hotel is on your right when you exit the garage.

**Airport Shuttle:** —Service provided by T.A.A.S.S (The Atlanta Airport Shuttle Service). Prices are \$16.50/person one-way and \$32.00/person roundtrip to and from Atlanta Hartsfield Airport. Purchase tickets on the ground transportation level of the airport. The phone number is 404-941-3440. Airline customers, please call 404-762-3007 for transportation.

## REGISTRATION

### The **DEADLINE** for the Early-Bird Registration Rates is **August 13, 2014**

- ◆ To receive Early-Bird rates if mailing payment, envelope must be postmarked **no later than August 13**, or standard rates will apply.
- ◆ **After August 13**, Standard Rates are applicable. Fees for the Postgraduate Course and Annual Meeting will increase by \$50 per category.

### The **DEADLINE** for the Standard Registration Rates is **September 19, 2014**

- ◆ To receive Standard rates if mailing payment, envelope must be postmarked **no later than September 19**, or On-site registration rates will apply.
- ◆ After September 19, on site fees are applicable. Fees for the Postgraduate Course and Annual Meeting will increase by \$50 per category.

**Register by mail, fax or the Internet.  
Visit ([www.naspghan.org](http://www.naspghan.org)) to register online.  
Alternately, mail or fax the registration forms  
located on Pages 20–25 of this brochure  
to the NASPGHAN National Office.  
Meeting confirmations, tickets and badges  
will be mailed 3 weeks prior to the meeting.**

## MEETING OBJECTIVES AND CME INFORMATION

### **EDUCATIONAL MISSION STATEMENT:**

**The educational mission of the North American Society for Pediatric Gastroenterology, Hepatology and Nutrition is to:**

- ❖ Advance understanding of normal development, physiology and pathophysiology of diseases of the gastrointestinal tract, liver and nutrition in children.
- ❖ Improve professional competence, quality of care, and patient outcomes by disseminating knowledge through scientific meetings, professional, and public education.

Our activities, education, and interventions will strive to use Adult Learning Methods (ALM) designed to improve competence, practice performance, and patient outcomes in measureable ways. These educational activities will be targeted to pediatric gastroenterologists, physicians with an expertise in pediatric gastroenterology, hepatology, and nutrition, subspecialty fellows in pediatric gastroenterology, and nurses specializing in pediatric gastroenterology, hepatology, and nutrition.

## CME INFORMATION

NASPGHAN is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

NASPGHAN designates this educational activity for a maximum of 30.0 *AMA PRA Category 1 Credit(s)*<sup>™</sup> (8.25 credit hours for the Postgraduate Course, and 21.75 credit hours for the Annual Meeting). Physicians should only claim credit commensurate with the extent of their participation in the activity.

## FACULTY DISCLOSURE

In order to ensure independence, objectivity and scientific rigor in all activities and in accordance with the ACCME, ANCC and ACPE Standards for Commercial Support, all those in a position to control the content of an educational activity are required to disclose their relevant financial relationships. This includes indicating that one has nothing to disclose. Disclosure information will be distributed to the activity attendees.

## AMERICANS WITH DISABILITIES ACT

In compliance with the Americans with Disabilities Act of 1990, NASPGHAN will make all reasonable effort to accommodate persons with disabilities. Contact NASPGHAN in order to make arrangements.

NASPGHAN National Office  
PO Box 6  
Flourtown, PA 19031

Telephone: 215–233–0808

Fax: 215–233–3918

**THURSDAY OCTOBER 23, 2014**

**7:55 AM—8:00 AM WELCOME AND INTRODUCTION**

**8:00 AM—9:15 AM MODULE 1: LIVER**

*Moderators: Henry Lin MD and Jennifer Strople MD*

❖ **PRIMARY SCLEROSING CHOLANGITIS**

*Dennis Black MD, Le Bonheur Children's Hospital*

Learning objectives:

- ◆ Learn the etiology and progression of the condition
- ◆ Understand how to appropriately screen
- ◆ Review the treatment controversies, including ursodiol and vancomycin

❖ **THE JAUNDICED INFANT**

*Saul J Karpen MD, PhD, Emory University School of Medicine*

Learning objectives:

- ◆ Learn the differential diagnosis and most common etiologies
- ◆ Understand the impact of genetic testing and other diagnostic modalities
- ◆ Know the available treatments and what is being developed

❖ **ACUTE LIVER FAILURE**

*Estella Alonso MD, Ann and Robert H Lurie Children's Hospital of Chicago*

Learning objectives:

- ◆ Learn the differential diagnosis and most common etiologies
- ◆ Know the treatment options and algorithms
- ◆ Understand the time frame of referral for transplantation

**9:00 AM—9:15 AM RAPID-FIRE Q&A**

**9:15 AM—10:30 AM MODULE 2: ENDOSCOPY**

*Moderators: Jyoti Ramakrishna MD and Melanie Greifer MD*

❖ **THE DREADED WAKE-UP CALL (PART A)**

**"WE'VE GOT A BLEEDER": EMERGENCY TECHNIQUES FOR VARICEAL BLEEDING—ESOPHAGEAL AND GASTRIC**

*Mercedes Martinez MD, New York Presbyterian Hospital*

Learning objectives:

- ◆ Know the appropriate timing and preparation for emergency interventions in this group of patients
- ◆ Learn the newest emergency interventional techniques for esophageal and gastric variceal bleeding
- ◆ Understand the risks and outcomes as well as alternatives for these techniques

❖ **THE DREADED WAKE-UP CALL (PART B)**

**"WE'VE GOT ANOTHER BLEEDER": EMERGENCY TECHNIQUES FOR NON-VARICEAL UPPER GI BLEEDING**

*Lee Bass MD, Ann and Robert H. Lurie Children's Hospital of Chicago*

Learning objectives:

- ◆ Know the appropriate differential diagnosis and causes of non-variceal upper GI bleeding
- ◆ Know the appropriate timing and preparation for emergency interventions in this group of patients
- ◆ Learn the newest emergency interventional techniques for non-variceal bleeding (injection, clips, heat, hemospray, EUS-guided, endoluminal suturing)

❖ **ENDOSCOPIC INTERVENTIONS FOR BILIARY TRACT DISEASE**

*Victor Fox MD, Boston Children's Hospital*

Learning objectives:

- ◆ Learn the indications and techniques for endoscopic therapy of choledocholithiasis
- ◆ Recognize different types of biliary strictures and approaches to endoscopic treatment
- ◆ Understand the role of endoscopy in the management of accidental and surgical hepatobiliary injury

10:15 AM—10:30 AM RAPID-FIRE Q&A

10:30 AM—10:50 AM BREAK

10:50 AM—12:25 PM MODULE 3: GI POTPOURRI

*Moderators: Dinesh Pashankar MD and Melanie Greifer MD*

❖ **EXTRAESOPHAGEAL MANIFESTATIONS OF GASTROESOPHAGEAL REFLUX (GER): FACT VS. FICTION**

*Benjamin Gold MD, Children's Center for Digestive Healthcare*

Learning objectives:

- ◆ Learn the extent of extraesophageal manifestations of GER
- ◆ Know the diagnostic testing modalities
- ◆ Understand the treatment options

❖ **EoE: PPI, EGD AND WHAT TO EAT: ALPHABET DISTRESS**

*Sandeep Gupta MD, Riley Hospital for Children*

Learning objectives:

- ◆ Understand the role of PPIs in EoE
- ◆ Update on steroid based EoE therapies
- ◆ Review role of diet in EoE

❖ **“GOTTA KEEP ON MOVIN”—NEW TRICKS AND TREATMENTS FOR MOTILITY DISORDERS**

*Carlo Di Lorenzo MD, Nationwide Children's Hospital*

Learning objectives:

- ◆ Discuss pathophysiologic mechanisms contributing to functional and motility disorders
- ◆ Present evidence supporting the use of novel medical and nonmedical treatments for motility disorders
- ◆ Integrate these modalities in the treatment of the child presenting with a possible motility disorder

❖ **WHAT'S NEW IN THE DIAGNOSIS AND MANAGEMENT OF CONSTIPATION**

*Manu Sood MD, Medical College of Wisconsin*

Learning objectives:

- ◆ Understand when additional testing is indicated in the constipated child, including blood work and anorectal manometry
- ◆ Review the data regarding biofeedback for treatment of dyssynergic defecation
- ◆ Learn about new medications for treatment of constipation

12:10 PM—12:25 PM RAPID-FIRE Q&A

12:25 PM—1:50 PM LEARNING LUNCHEONS (REGISTRATION & TICKET REQUIRED)

1 **JAUNDICE IN THE NICU**

*Saul Karpen MD and Ezequiel Neimark MD—Moderator: Vicky Ng MD*

2 **LIVER FAILURE**

*Estella Alonso MD and Henry Lin MD—Moderator: Pinut Bulut MD*

3 **GI BLEEDING EMERGENCIES—CHALLENGING CASES**

*Mercedes Martinez MD and Lee Bass MD—Moderator: Anu Chawla MD*

4 **EXCITING CASES IN ESOPHAGEAL DISORDERS**

*Sandeep Gupta MD and Benjamin Gold MD—Moderator: Dinesh Pashankar MD*

5 **ERCP, MRCP . . . CHOOSING THE BEST MODALITY FOR BILIARY IMAGING**

*Victor Fox MD and Amber Spofford MD—Moderator: Raza Patel MD*

6 **FAD OR FICTION: CASE BASED DISCUSSION OF ALTERNATIVE DIETS**

*Robert Baldassano MD, Dale Lee MD and Lindsey Albenberg MD—Moderator: Diana Riera MD*

7 **CHALLENGING CASES IN CONSTIPATION**

*Manu Sood MD and Katja Kovacic MD—Moderator: John Stutts MD*

8 **THE TODDLER WITH IBD**

*Scott Snapper MD and Abdul Elkadri MD—Moderator: Judith Kelsen MD*

9 **INTRAABDOMINAL ABSCESS: THE VIEW FROM BOTH SIDES**

*Robbyn Sockolow MD and Jason Frischer MD—Moderator: Maria Oliva-Hemker MD*

1:50 PM—3:05 PM **MODULE 4: NUTRITION**

1:50 PM—3:05 PM **MODULE 4: NUTRITION**

*Moderators: Kelly Thomsen MD and Melanie Greifer MD*

## DIET AND THE MICROBIOME

*Robert Baldassano MD, Children's Hospital of Philadelphia*

Learning objectives:

- ◆ Understand how diet influences the human microbiome
- ◆ Learn how the microbiome influences the response to diet and dietary components
- ◆ Become familiar with the potential ways to modify the microbiome to reduce risk and prevent or modify disease

## FODMAP: NAVIGATING THIS NOVEL DIET

*Bruno Chumpitazi MD, MPH, Texas Children's Hospital, Baylor College of Medicine*

Learning objectives:

- ◆ Describe the common characteristics of FODMAP carbohydrates and mechanisms of action in triggering GI symptoms
- ◆ Review the evidence to support their use in patients
- ◆ Learn to identify and appropriately counsel patients in the use of the FODMAP diet

## NUTRITION IN THE CHILD WITH NEUROLOGICAL DISABILITIES

Kathleen J Motil MD, PhD, Baylor College of Medicine

Learning objectives:

- ◆ Be able to identify and address issues of malnutrition
- ◆ Understand the management of refeeding syndrome and who is at risk
- ◆ Learn appropriate tube feeding schedules and possible transition to oral feedings

2:50 PM—3:05 PM RAPID-FIRE Q&amp;A

2:50 PM—3:05 PM RAPID-FIRE Q&amp;A

**3:05 PM—3:25 PM** **BREAK**

**3:05 PM—3:25 PM** **BREAK**

3:25 PM—5:00 PM **MODULE 5: INTESTINAL INFLAMMATION**

3:25 PM—5:00 PM **MODULE 5: INTESTINAL INFLAMMATION**

*Moderators: Maria Oliva-Hemker MD and Jennifer Strople MD*

## EARLY ONSET INFLAMMATORY BOWEL DISEASE

Scott Snapper MD, Boston Children's Hospital

Learning objectives:

- ◆ Review immunodeficiencies that may present with intestinal inflammation
- ◆ Understand the phenotype, genetics and prognosis for idiopathic IBD under 5 years
- ◆ Learn an appropriate immunological evaluation of a child with early IBD

### ❖ “LUMINITIS”: WHEN INFLAMMATION IS NOT IBD (MICROSCOPIC COLITIDES)

Robbyn Sockolow MD, New York—Presbyterian Hospital, Weill Cornell Medical Center

Learning objectives:

- ◆ Understand the diagnostic criteria and differential diagnosis for microscopic colitis
- ◆ Review the treatment of lymphocytic and collagenous colitis
- ◆ Discuss the diagnostic criteria and treatment of eosinophilic colitis, including approach in transplant patients

## SURGERY IN CROHN'S DISEASE

Jason Frischer MD, Cincinnati Children's Hospital and Medical Center

Learning objectives:

- ◆ Learn pre-surgical optimization of medical treatment (IFX vs non IFX)
- ◆ Understand decision making of stricturoplasty vs resection
- ◆ Know the outcomes and morbidities post operatively

## BEYOND ANTI-TNF THERAPY: NEW MEDICATIONS IN THE PIPELINE

*Athos Bousvaros MD, Boston Children's Hospital*

Learning objectives:

- ◆ Review the mechanism of action of emerging biologic therapies
- ◆ Review the available data on the efficacy of these medications
- ◆ Understand the risks of these therapies
- ◆ Review currently available rescue therapies for anti-TNF nonresponders in Crohn's disease (natalizumab, thalidomide)

**4:45 PM—5:00 PM RAPID-FIRE Q&A**

4:45 PM—5:00 PM RAPID-FIRE Q&amp;A

# NASPGHAN ANNUAL MEETING

## THURSDAY OCTOBER 23, 2014

5:00 PM—7:00 PM

WELCOME RECEPTION/POSTER SESSION I

7:00 PM—9:00 PM

PROFESSIONAL DEVELOPMENT WORKSHOP—GLASS CEILINGS

❖ **PROMOTIONS AND CLIMBING THE LADDER**

*Jean Molleston MD, Riley Hospital for Children*

❖ **I DON'T KNOW HOW SHE DOES IT**

*Elaine Moustafellos MD, Hackensack University Medical Center*

❖ **COMING FROM A DIFFERENT COUNTRY**

*Samuel Nurko MD, Boston Children's Hospital*

## FRIDAY OCTOBER 24, 2014

7:00 AM—8:00 AM

MEET THE PROFESSOR BREAKFASTS (REGISTRATION & TICKET REQUIRED)

1 **CHALLENGING CASES IN AUTOIMMUNE HEPATITIS**

*Udeme Ekong MD and Henry Lin MD*

2 **WHEN DO I REALLY NEED MANOMETRY?**

*Jose Garza MD and Ajay Kaul MBBS, MD*

3 **PANCREATIC AND BILIARY ENDOSCOPY: INDICATIONS, COMPLICATIONS, TRAINING AND COMPETENCY**

*Bradley Barth MD and David Troendle MD*

4 **FECAL TRANSPLANT**

*Stacy Kahn MD and Richard Kellermayer MD, PhD*

5 **FPIES/ALLERGY**

*Seth Marcus MD, MSc and Luqman Seidu MD*

6 **OBESITY**

*Emily Rothbaum Perito MD, MAS and Miriam B Vos MD, MSPH*

7 **RUMINATION**

*Joseph M Croffie MD and Desale Yacob MD*

8 **SHORT GUT**

*Bram Raphael MD and Timothy A Sentongo MD*

9 **THE DIFFICULT CROHN'S PATIENT**

*Shehzad A Saeed MD and Thomas Walters MD*

10 **HEPATITIS C (IN SPANISH) (NO CHARGE)**

*Norberto Rodriguez-Baez MD and Rima Fawaz MD*

11 **THE ART AND SCIENCE BEHIND ABP EXAMINATIONS (NO CHARGE)**

*Erik Meyer MD and Deb Baldwin MD, American Board of Pediatrics*

8:15 AM—10:00 AM

PLENARY SESSION I

*Moderators: Carlo Di Lorenzo MD and Athos Bousvaros MD*

❖ **8:15 AM—8:30 AM**

**WELCOME**

❖ **8:30 AM—9:00 AM**

**BASIC SCIENCE YEAR IN REVIEW**

*John Barnard MD, Nationwide Children's Hospital*

❖ **9:00 AM—9:30 AM**

**BUSINESS MEETING**

❖ **9:30 AM—10:00 AM**

**CLINICAL SCIENCE YEAR IN REVIEW**

*William Balistreri MD, Cincinnati Children's Hospital Medical Center*

**A CLINICAL SESSION 1: NUTRITION***Moderators: Maria Mascarenhas MBBS and David Suskind MD***■ FOOD AND FIRE: DIET IN IBD***Joel Rosh MD, Goryeb Children's Hospital*Learning objectives:

- ◆ To review the effect of diet on the gut microbiome
- ◆ Participants will review the evidence regarding exclusive enteral nutrition as a therapy in IBD
- ◆ Common nutritional concerns raised by patients and families with IBD will be reviewed

**■ DIET IN IRRITABLE BOWEL SYNDROME (IBS)***Robert Shulman MD, Baylor College of Medicine*Learning objectives:

- ◆ Describe how specific dietary components can exacerbate symptoms in IBS
- ◆ Apply different dietary management strategies to children with IBS

**■ ELEMENTAL, EMPIRIC OR DIRECTED DIET: OH MY!***Amir Kagawalla MD, Ann and Robert H Lurie Children's Hospital of Chicago*Learning objectives:

- ◆ Natural history of eosinophilic esophagitis
- ◆ Familiarize the audience with the different dietary approaches to eosinophilic esophagitis
- ◆ Describe the efficacy of different diet treatments

**■ SHORT AND (NOT) SWEET: DIET AND SHORT BOWEL SYNDROME***Valeria Cohran MD, Ann and Robert H Lurie Children's Hospital of Chicago*Learning objectives:

- ◆ Develop regimens to introduce solid foods
- ◆ Understand the advantages and limitations of carbohydrates, fats, and proteins in the diet
- ◆ Recognize the optimal timing to refer to a multidisciplinary feeding clinic

**B CLINICAL SESSION 2: HOT TOPICS IN LIVER***Moderators: Shikha Sundaram MD and Simon Ling MD***■ DEBATE: ESOPHAGEAL VARICEAL BLEEDING THERAPY IN CHILDREN: PROACTIVE OR REACTIVE?***Karen Murray MD, Seattle Children's Hospital -vs- Maureen Jonas MD, Children's Hospital, Boston*Learning objectives:

- ◆ Accurately assess the risk of variceal hemorrhage in pediatric patients with portal hypertension
- ◆ Develop a treatment strategy for variceal bleeding in children
- ◆ Recognize gaps in evidence-based pediatric management of variceal bleeding

**■ NASH: TRICK OR TREAT?***Rohit Kohli MD, Cincinnati Children's Hospital Medical Center*Learning objectives:

- ◆ Provide updated data regarding the impact of obesity-related fatty liver disease in children
- ◆ Highlight newer treatment paradigms and options now available for obesity-related fatty liver disease in children
- ◆ Introduce concept, challenges, and downstream consequences of pediatric gastroenterologists "treating" obesity-related fatty liver disease in children

**■ THE ROLE OF THE MICROBIOME IN NASH***Marielena Mouzaki MD, Hospital for Sick Children*Learning objectives:

- ◆ Analyzing the effects of intestinal microbiota on nutrient metabolism
- ◆ Evaluating the inflammatory and profibrotic impact of microbiota on the liver of patients with NASH
- ◆ Demonstrating the therapeutic potential of microbiota in NASH

**C RESEARCH SESSION 1—POTPOURRI/ENDOSCOPY: ORAL ABSTRACT PRESENTATIONS AND STATE OF THE ART LECTURE***Moderators: Ali Mencin MD and Nitika Gupta MD***■ STATE OF THE ART LECTURE:  
TO BE NAMED**

**D RESEARCH SESSION 2 – BASIC IBD: ORAL ABSTRACT PRESENTATIONS AND STATE OF THE ART LECTURE**

*Moderators: Michael Rosen MD and David Dunkin MD*

**■ STATE OF THE ART LECTURE—  
BASIC RESEARCH IN PEDIATRIC INFLAMMATORY BOWEL DISEASE: WHERE ARE WE GOING?**

*Ted Denson MD, Cincinnati Children's Hospital Medical Center*

Learning objectives:

- ◆ Be familiar with major recent developments in pediatric IBD translational research
- ◆ Understand the implications of recent discoveries for clinical practice and new patient classification systems
- ◆ Identify gaps in our current knowledge that need to be filled and the next steps for the research agenda

**12:00 PM—2:00 PM POSTER SESSION II**

**12:00 PM—2:30 PM HANDS ON ENDOSCOPY (SEPARATE REGISTRATION REQUIRED)**

*Organizer: Marsha Kay MD*

**2:30 PM—4:00 PM CONCURRENT SESSIONS**

**A CLINICAL SESSION 3: GASTROENTEROLOGY IN THE NICU**

*Moderators: Elizabeth Gleghorn MD and John Kerner MD*

**■ PROBIOTICS IN NEC**

*Philip M Sherman MD, FRCPC, Hospital for Sick Children*

Learning objectives:

- ◆ Provide an update on the composition and function of the gut microbiota during the first two years of life
- ◆ Consider the potential impacts of an altered gut microbiome (“dysbiosis”)
- ◆ Critically assess the evidence for altering the gut microbiota to prevent necrotizing enterocolitis and treat allergic colitis

**■ GERD IN THE NICU**

*Hayat Mousa MD, Nationwide Children's Hospital*

Learning objectives:

- ◆ To determine the prevalence and economic burden of clinical gastroesophageal reflux disease (GERD) in preterm infants
- ◆ To appropriately utilize diagnostic testing in the evaluation of infants with complicated GERD
- ◆ To understand the safety and outcome of current therapeutic approaches in the management of infants with clinical GER

**■ TPN CHOLESTASIS**

*Beth Carter MD, Baylor College of Medicine*

Learning objectives:

- ◆ Identify clinical signs, lab measurements, and patient-specific risk factors that will help achieve timely diagnosis of TPN-associated cholestasis
- ◆ Gain exposure to various treatment algorithms such as proactive lipid minimization strategies for TPN-associated cholestasis
- ◆ Discuss and debate opinions regarding novel lipid formulations and treatments for TPN-associated cholestasis

**B VIRTUAL CELIAC DISEASE: THE SPECTRUM OF GLUTEN RELATED DISORDERS**

*Moderators: Linda Book MD, Tracy Ediger MD, Alessio Fasano MD, Joel Friedlander MD, Stefano Guandalini MD, Ed Hoffenberg MD, Hilary Jericho MD, Nasim Khavari MD, Maureen Leonard MD, Edwin Liu MD, Raza Patel MD, Michelle Pietzak MD, Joyce Silvester MD, Ritu Verma MD and Dascha Weir MD*

*Ivor Hill MD, Nationwide Children's Hospital*

Learning objectives:

- ◆ Differentiate celiac disease from wheat allergy and non-celiac disease gluten sensitivity
- ◆ Choose appropriate tests to correctly diagnose gluten related disorders
- ◆ Develop strategies for dealing with diagnostic dilemmas in gluten related disorders

**C RESEARCH SESSION 3—CLINICAL IBD: ORAL ABSTRACT PRESENTATIONS AND STATE OF THE ART LECTURE**

*Moderators: Subra Kugathasan MD and Shehzad Saeed MD*

**■ STATE OF THE ART LECTURE:**

**CLINICAL AND TRANSLATIONAL RESEARCH IN IBD: MILESTONES ON A LONG PATH**

*Richard Grand MD, Children's Hospital Boston*

Learning objectives:

- ◆ Know the pathogenesis of pediatric inflammatory bowel diseases
- ◆ Be familiar with animal models that provide insights into pathogenesis
- ◆ Understand the link between colonic inflammation and colon cancer
- ◆ Use appropriate surveillance techniques to evaluate the success of therapy

**D RESEARCH SESSION 4—PANCREAS: ORAL ABSTRACT PRESENTATIONS AND STATE OF THE ART LECTURE**

*Kathy Chen MD and Sohail Husain MD*

**■ STATE OF THE ART LECTURE:**

**PEDIATRIC PANCREATIC RESEARCH: WHERE ARE WE GOING?**

*Peter Durie MD, FRCPC, Hospital for Sick Children*

After completing this session, attendees will gain insight into:

- ◆ Progression of knowledge of exocrine pancreatic diseases during the past 30 years
- ◆ The role and limitations of molecular testing for diagnosing exocrine pancreatic disorders
- ◆ Current and future research directions

4:15 PM—5:15 PM

**AWARDS CEREMONY**

6:00 PM—8:00 PM

**CLINICAL PRACTICE FORUM:**

**INNOVATIONS IN CLINICAL PEDIATRIC GASTROENTEROLOGY PRACTICE**

❖ 6:00 PM—6:05 PM

**WELCOME BUFFET**

❖ 6:05 PM—6:15 PM

**CLINICAL PRACTICE COMMITTEE UPDATE**

❖ 6:15 PM—6:25 PM

**UPDATE ON THE INTERNET RESEARCH INITIATIVE**

*Sudipta Misra MD, Vidant Medical Center*

❖ 6:25 PM—6:35 PM

**WEBSITE UPDATE**

❖ 6:35 PM—7:00 PM

**STAYING INFORMED: WHY DOCTORS NEED TWITTER ETC.**

*Jay Hochman MD, Children's Center for Digestive Healthcare*

❖ 7:00 PM—7:25 PM

**“SMILE, YOU'RE ON TELEMEDICINE”:**

**AN INTRODUCTION TO TELEMEDICINE IN PEDIATRIC GASTROENTEROLOGY**

*Ryan Carvalho MD, Nestlé Nutrition*

❖ 7:25 PM—7:40 PM

**USING OUR CENTER'S MODEL TO HELP YOURS**

*Stan Cohen MD, Children's Center for Digestive Healthcare*

❖ 7:40 PM—8:00 PM

**ROUND TABLE DISCUSSION AND QUESTIONS**

7:00 PM—9:00 PM

**TRAINING PROGRAM DIRECTORS MEETING**

6:00 PM—8:00 PM

**LASPGHAN MEETING AND RECEPTION**

**SATURDAY OCTOBER 25, 2014**

7:00 AM—8:00 AM

**MEET THE PROFESSOR BREAKFASTS (REGISTRATION & TICKET REQUIRED)**

**12 ADVOCACY**

*Camille Bonta and Mark A Gilger MD*

**13 BONE HEALTH**

*Helen Pappa MD and Ala Shaikhkhalil MD*

**14 CARING FOR THE POST TRANSPLANT PATIENT FOR THE NON-TRANSPLANT HEPATOLOGIST**

*Vicky Ng MD and Norberto Rodriguez-Baez MD*

**15 CHALLENGING CASES OF ABDOMINAL PAIN**

*John Rosen MD and Miguel Saps MD*

- 16 FEEDING DISORDERS**  
*Barbara McElhanon MD and Richard J Noel MD, PhD*
- 17 MEDICAL THERAPY IN ULCERATIVE COLITIS**  
*Wallace V Crandall MD and Jennifer Dotson MD*
- 18 MICRONUTRIENT DEFICIENCIES**  
*Ruba Abdelhadi MD and Ann O Scheimann MD, MBA*
- 19 UP CLOSE AND PERSONALIZED MEDICINE: A PRIMER**  
*Sandeep Gupta MD and Prashanth Porayette MD, PhD*
- 20 SPHINCTER OF ODDI DYSFUNCTION/POST CHOLECYSTECTOMY PAIN**  
*Douglas S Fishman MD, FASGE and Arvind Srinath MD*
- 21 REGURGITACION Y VOMITOS (SPANISH BREAKFAST) (NO CHARGE)**  
*Adrian Miranda MD and Claudio Moreira MD*

**8:15 AM—10:00 AM PLENARY SESSION II**

*Moderators: John Barnard MD and Neera Gupta MD*

❖ **KEYNOTE LECTURE: THE FUTURE OF GASTROINTESTINAL DISEASE AND SYMPTOM MONITORING: BIOSENSOR, E-PORTAL, AND SOCIAL MEDIA APPLICATIONS**

*Brennan Spiegel MD, University of California, Los Angeles*

Learning objectives:

- ◆ To recognize how advances in psychometrics are improving patient reported outcome (PRO) measurement
- ◆ To study how patient-provider-portals and electronic health record interventions can improve patient outcomes
- ◆ To understand the evolving role of social media in healthcare research and delivery
- ◆ To learn about the "quantified self" movement and of biosensors as a novel outcome measure for clinical practice

❖ **ORAL ABSTRACT PRESENTATIONS**

**10:30 AM—12:00 PM CONCURRENT SESSIONS**

**A CLINICAL SESSION 4: HOT TOPICS IN INFLAMMATORY BOWEL DISEASE**

*Moderators: Michael Kappelman MD and Neera Gupta MD*

■ **THE ROLE OF THE MICROBIOME IN IBD**

*Subra Kugathasan MD, Emory Children's Center*

Learning objectives:

- ◆ Review the large body of literature about the gut microbiome in IBD over the last decade
- ◆ Understand if diet and host genetics determine the gut microbiome and to critically review if microbiome influences the diagnosis and treatment in IBD
- ◆ Speculate how the emerging discoveries of gut microbiome can help clinicians manage IBD in day-to-day practice

■ **THE ROLE OF DRUG MONITORING IN INFLAMMATORY BOWEL DISEASE**

*Jennifer Strople MD, Ann and Robert H Lurie Children's Hospital of Chicago*

Learning objectives:

- ◆ Understand the goals of TPMT testing and thiopurine metabolite monitoring in clinical care
- ◆ Recognize the association between infliximab levels and clinical outcomes in UC and Crohn's disease
- ◆ Interpret anti-TNF antibody levels and apply to patient care

■ **DEBATE: INITIATION OF MAINTENANCE TREATMENT IN MODERATE TO SEVERE CROHN'S DISEASE: IMMUNOMODULATORS VS BIOLOGIC AGENTS**

*James F. Markowitz MD, North Shore-LIJ Health System vs. Maria M Oliva-Hemker MD, Johns Hopkins University School of Medicine*

Learning objectives:

- ◆ To review the published efficacy experience with immunomodulator therapy for children with Crohn's disease
- ◆ To discuss the potential short and long term risks associated with immunomodulators
- ◆ To understand the potential for changing the natural history of Crohn's disease with these agents

**B CLINICAL SESSION 5: HOT TOPICS IN GI**

*Moderators: Alfredo Larossa-Haro MD and Jeffery Lewis MD*

■ **EARLY NUTRITIONAL PROGRAMMING OF LONG TERM HEALTH: FACT OR FICTION**

*Berthold Koletzko MD, Dr. von Hauner Children's Hospital*

Learning objectives:

- ◆ Identify opportunities to promote lifelong health through improved nutrition in pregnancy and early childhood
- ◆ Know the evidence for risk reduction of offspring obesity through intervention during pregnancy targeting maternal diet and physical activity
- ◆ Understand the association of breastfeeding and moderate weight gain in early childhood with reduced later obesity
- ◆ Know the evidence for risk reduction of offspring obesity through intervention during pregnancy targeting maternal diet and physical activity

■ **IS HELICOBACTER PYLORI GOOD FOR YOU?**

*Steven J Czinn MD, University Of Maryland School of Medicine*

■ **THE ROLE OF IMPEDANCE TESTING IN GERD**

*Marina Orsi MD, Hospital Italiano de Buenos Aires*

Learning objectives:

- ◆ To understand the principles of esophageal impedance
- ◆ To understand the indications and limitations of the technique
- ◆ Discuss the advantages and disadvantages with respect to pH probe
- ◆ To understand the clinical conditions in which impedance is recommended

**C BILLING AND CODING (REGISTRATION REQUIRED)**

*Kathleen Mueller, AskMueller Consulting*

**D HANDS ON MOTILITY: ANORECTAL MANOMETRY (REGISTRATION REQUIRED)**

*Organizer: Joseph Croffie MD, Riley Hospital for Children*

**E RESEARCH SESSION 5: CELIAC/EoE/ALLERGIC ENTEROPATHY: ORAL ABSTRACT PRESENTATIONS AND STATE OF THE ART LECTURE**

*Moderators: Mei-Lun Wang MD and Sonia Michail MD*

■ **STATE OF THE ART LECTURE:**

**PEDIATRIC EOSINOPHILIC ESOPHAGITIS RESEARCH: WHERE ARE WE GOING?**

*Glenn T Furuta MD, Children's Hospital of Colorado*

Learning objectives:

- ◆ Recognize pathogenetic mechanisms and therapeutic targets
- ◆ Realize unmet needs in basic, translational and clinical research

**12:00 PM—2:00 PM POSTER SESSION III**

**12:00 PM—2:00 PM HANDS ON ENDOSCOPY (SEPARATE REGISTRATION REQUIRED)**

*Organizer: Marsha Kay MD, Cleveland Clinic*

**2:00 PM—3:30 PM CONCURRENT SESSIONS**

**A CLINICAL SESSION 6: ENDOSCOPY**

*Moderators: Robert Kramer MD and Mark McOmber MD*

■ **MEASURING QUALITY IN PEDIATRIC ENDOSCOPY: ARE WE THERE YET?**

*Jenifer Lightdale MD, University of Massachusetts Children's Medical Center*

Learning objectives:

- ◆ Relate the 6 quality domains identified by the Institute of Medicine ( Effectiveness, Patient-centeredness, Safety, Efficiency, Timeliness, Equity) to the practice of pediatric endoscopy
- ◆ Identify current validated measures that can be used to assess the quality of pediatric endoscopy
- ◆ Discuss processes for implementing quality metrics in the pediatric endoscopy suite

■ **VASCULAR ANOMALIES: DIAGNOSIS AND MANAGEMENT**

*Victor L Fox MD, Boston Children's Hospital*

Learning objectives:

- ◆ Properly classify vascular anomalies as either malformations and tumors
- ◆ Recognize the typical endoscopic appearance of specific lesions
- ◆ Develop an appropriate treatment plan for vascular lesions

■ **ADVANCED ENDOSCOPY IN PEDIATRIC POPULATIONS**

*Field Willingham MD, Emory University Healthcare*

Learning objectives

- ◆ Know the indications for advanced endoscopic procedures in pediatric populations
- ◆ Review applications and limitations of advanced endoscopic treatments in children
- ◆ Understand the role, outcomes, and complications associated with pediatric ERCP
- ◆ Learn new therapeutic advances in the management of Barrett's esophagus, achalasia and esophageal strictures
- ◆ Understand the novel therapies for achalasia and esophageal strictures

**B**

**CLINICAL SESSION 7: INFLAMMATORY BOWEL DISEASE**

*Moderators: Ted Denson MD and Edwin de Zoeten MD*

■ **RISK STRATIFICATION IN PEDIATRIC IBD: ARE WE THERE YET?**

*Jeffrey S Hyams MD, Connecticut Children's Hospital*

Learning objectives:

- ◆ Understand the relationship of clinical features, genetics, serology, and microbiome to the prognosis of pediatric IBD
- ◆ Utilize our current knowledge of risk stratification to design initial therapies for pediatric IBD

■ **CROSS EXAMINATION OF CROSS-SECTIONAL IMAGING IN IBD**

*Sudha Anupindi MD, Children's Hospital of Philadelphia*

Learning objectives:

- ◆ Identify the current role of barium studies and conventional CT in IBD patients
- ◆ Analyze the role of CT and MR enterography techniques for evaluation of patients with suspected or known IBD and its complications
- ◆ Analyze the radiation risk from imaging
- ◆ Become familiar with novel techniques for evaluation of the bowel, i.e. bowel ultrasound, contrast enhanced bowel ultrasound and bowel elastography

■ **IBD TREATMENT: TARGETS FOR THE MODERN AGE**

*Eric Benchimol MD, Children's Hospital of Eastern Ontario*

Learning objectives:

- ◆ To review the concepts of 'mucosal healing' and 'deep remission' in pediatric IBD
- ◆ To determine which targets best predict prognosis
- ◆ To assess current methods of measuring remission in children with IBD

**C**

**RESEARCH SESSION 6—LIVER: ORAL ABSTRACT PRESENTATIONS AND STATE OF THE ART LECTURE**

*Moderators: Randolph Matthews MD, PhD and Ajay Jain MD*

■ **STATE OF THE ART LECTURE:**

**IMPROVING CLINICAL PRACTICE THROUGH RESEARCH: WHERE ARE WE GOING?**

*Jorge Bezerra MD, Cincinnati Children's Hospital Medical Center*

Learning objectives:

- ◆ To become familiar with research advances in pediatric liver disease
- ◆ To recognize implications for individualized care in the clinic:
  - The rationale and feasibility of personalized care
  - The argument for de-personalization of care
- ◆ To outline potential research directions: From liver genome to liver bud

**D RESEARCH SESSION 7—MOTILITY AND FUNCTIONAL DISORDERS: ORAL ABSTRACT PRESENTATIONS AND STATE OF THE ART LECTURE**

*Moderators: Arvind Srinath MD and Cheryl Garipey MD*

**■ STATE OF THE ART LECTURE: PEDIATRIC MOTILITY RESEARCH: WHERE ARE WE GOING?**

*Robert Heuckeroth MD, PhD, Children's Hospital of Philadelphia*

Learning objectives:

- ◆ Discuss some of the current clinical dilemmas in care of children with intestinal motility disorders
- ◆ Review the type of information we need to improve our ability to care for children with serious intestinal motility disorders
- ◆ Discuss cutting edge research that may provide new approaches to diagnose, treat, prevent or cure children with serious intestinal motility disorders
- ◆ Consider options for collaborative work to advance pediatric intestinal motility disorder research

**3:45 PM—5:15 PM CONCURRENT SESSIONS**

**A CLINICAL SESSION 8: FUNCTIONAL/MOTILITY**

*Moderators: John Fortunato MD and Shamaila Waseem MD*

**■ THE AUTONOMIC NERVOUS SYSTEM: A MISSING LINK IN FGID?**

*Gisela G Chelimsky MD, Medical College of Wisconsin*

Learning objectives:

- ◆ Understand the relationship of POTS to FGIDs
- ◆ List the comorbidities of FGID
- ◆ Describe the central mechanisms of pain modulation
- ◆ Relate pain modulation to autonomic function

**■ SOCIETY GUIDELINES FOR CONSTIPATION: WHAT IS NEW?**

*Samuel Nurko MD, Boston Children's Hospital*

Learning objectives:

- ◆ Understand the new NASPGHAN-ESPGHAN guidelines for the treatment of functional constipation
- ◆ Understand changes to the new guidelines
- ◆ Understand the evidence behind the new guideline recommendations

**■ PHARMACOLOGICAL TREATMENTS FOR CHRONIC ABDOMINAL PAIN: WHAT YOU SEE IS NOT WHAT YOU GET**

*Adrian Miranda MD, Medical College of Wisconsin*

Learning objectives:

- ◆ Review the basic pathophysiology of chronic abdominal pain in children
- ◆ Review current treatment options and problems with clinical trials
- ◆ Understand the potential targets for pharmacological therapy

**B CLINICAL SESSION 9: LIVER/PANCREAS**

*Moderators: Eve Roberts MD and Aliye Uc MD*

**■ DRUG-INDUCED LIVER INJURY (DILI) IN CHILDREN: CHALLENGES AND OPPORTUNITIES**

*Robert H Squires MD, Children's Hospital of Pittsburgh of UPM*

Learning objectives:

- ◆ Appreciate the complex mechanisms of DILI
- ◆ Identify potential markers for DILI
- ◆ Recognize the importance of reporting suspected DILI cases

**■ PRURITUS: THE ITCH THAT DRIVES CHOLESTATIC PATIENTS WILD!**

*James E Heubi MD, Cincinnati Children's Hospital Medical Center*

Learning objectives:

- ◆ Demonstrate understanding of the pathophysiology of pruritus in infants/children with cholestatic pruritus
- ◆ Apply knowledge of medical/surgical treatments to improve quality of life among infants/children with cholestatic pruritus
- ◆ Evaluate the effectiveness of potential for new therapies for treatment of infants/children with cholestatic pruritus

*Véronique Morinville MD, Montreal Children's Hospital*

Learning objectives:

- ◆ Evaluate a child for diagnosis and complications of chronic pancreatitis (CP)
- ◆ Develop a management plan for pediatric CP (that may include medical, endoscopic, and surgical interventions such as total pancreatectomy and islet autotransplantation)
- ◆ Discuss emerging trends, targets, and improvements in the diagnosis of and therapies for pediatric CP

## **C RESEARCH SESSION 8—NUTRITION: ORAL ABSTRACT PRESENTATIONS AND STATE OF THE ART LECTURE**

*Moderators: Rohit Kohli MD and Miriam Vos MD*

## ■ STATE OF THE ART LECTURE: PEDIATRIC MALNUTRITION RESEARCH: WHERE ARE WE GOING?

Learning objectives:

- ◆ To discuss the latest definitions of malnutrition and their application to clinical practice and future research
- ◆ To discuss the role of malnutrition in outcomes in various GI and non-GI diseases and its application to clinical practice and future research

## D RESEARCH SESSION 9—VIDEO ABSTRACT SYMPOSIUM

*Moderator: Douglas Fishman MD*

## VIDEO ABSTRACT PRESENTATIONS

## ■ THE HISTORY OF PEDIATRIC ENDOSCOPY

*Douglas Fishman MD, Baylor College of Medicine*

5:30 PM

## GI JEOPARDY FOR FELLOWS AND FACULTY

7:00 PM

**SOCIAL EVENT**

**SUNDAY OCTOBER 26, 2014**

**8:00 AM—11:30 AM**

## RESEARCH SKILLS WORKSHOP

## WELCOME AND INTRODUCTION

*Neera Gupta MD and Benjamin Gold MD*

## ◆ NON-NIH SOURCES OF FUNDING

*Harland Winter MD, MassGeneral Hospital for Children*

 NIH: MINI 101

Judith Podskalny PhD, NIDDK

 GETTING NIH FUNDING

*Sohail Husain MD, Children's Hospital of Pittsburgh*

## MAINTAINING NIH FUNDING & MANAGING YOUR FUNDS

Joel Lavine MD, Morgan-Stanley Children's Hospital

## ◆ NAVIGATING CHALLENGES IN RESEARCH AS MID-LEVEL FACULTY

*Binita Kamath MD, Hospital for Sick Children*

## ◆ PROTECTING YOUR PROTECTED TIME

*John Barnard MD, Nationwide Children's Hospital*

## PERSPECTIVES OF A DIVISION CHIEF

*Mitchell Cohen MD, Cincinnati Children's Hospital Medical Center*

## DISCUSSION/WRAP-UP

## LASPGHAN PROGRAM

**FRIDAY OCTOBER 24, 2014—SATURDAY OCTOBER 25, 2014**

## COMITÉ ORGANIZADOR

- ❖ Miguel Saps MD  
*Chair, NASPGHAN International Committee*
- ❖ Alfredo Larrosa Haro MD  
*Mexican Councilor, NASPGHAN*
- ❖ Marina Orsi MD  
*LASPGHAN Past President*

## FACULTAD

- ❖ Ariel Feldstein MD  
*UCSD-Rady Children's Hospital*
- ❖ Francisco Sylvester MD  
*Connecticut Children's Medical Center*
- ❖ Jose Garza MD  
*Children's Center for Digestive Health Care*
- ❖ Leonel Rodríguez MD  
*Children's Hospital Boston*
- ❖ Norberto Rodriguez-Baez MD  
*UT Southwestern Medical Center*

**VIERNES, 24 DE OCTUBRE DEL 2014**

# APGNN ANNUAL MEETING

## FRIDAY OCTOBER 24, 2014

7:30 AM—8:15 AM	REGISTRATION/BREAKFAST/WELCOME
8:15 AM—9:15 AM	<b>KEYNOTE SPEAKER—<i>Lori Stohs</i>.....60 minutes—1.0</b> Lori Stohs is a consulting professional with a strong mission to create meaningful change for individuals and organizations. Lori has more than 17 years of professional experience strategic planning, organizational performance consulting, executive, team and individual performance coaching, talent management and employee & customer engagement. In addition, Lori has extensive experience in human resource management, succession planning & training and development strategy & implementation. Lori's years of impactful business coaching with companies from all over the globe have helped move leaders to higher levels of performance. Lori combines her years of experience with relevant, up to date data to develop a coaching plan that is tailored to each client's needs. Her talent is helping individuals discover, understand and develop their unique strengths and talents. Her years of working with individuals and corporate teams have honed her ability to break a group of individuals down by their strengths, immediately recognizing potential pitfalls and unrecognized opportunities for success. <b>All attendees should take the 30 minute Strengths Assessment. A special code will be provided after registration.</b>
9:15 AM—10:15 AM	<b>LIVER SEROLOGY—<i>Shabina Walji-Virani, CPNP</i> .....60 minutes—1.0</b> ■ How to interpret liver labs ■ What labs to obtain in elevation of aminotransferases ■ What is your differential and how to treat each
10:15 AM—10:30 AM	BREAK
10:30 AM—12:30 PM	<b>BREAKOUT SESSIONS (PLEASE CHOOSE ONE).....120 minutes—2.0</b> ❖ <b>OPTION 1: RN SECTION</b> —PHONE TRIAGE— <i>Bernadette Diez, CRNP</i> ■ Tips and tricks for talking to parent —GASTROSTOMY TUBES— <i>Ricardo Caicedo MD</i> ■ Review G tube, GJ tube and J tube indications ■ Trouble shooting ideas—skin break down and leaking —GI 101— <i>Susan Peck, CRNP</i> ■ Review common GI disorders ■ Discuss common therapies in the GI disorders ❖ <b>OPTION 2: APN SECTION</b> —ROLE OF APN IN HEALTH CARE REFORM— <i>Laura Searcy, MN, APRN, PNP-BC</i> ■ Identify the role of APN in the future of healthcare —BASIC IMMUNOLOGY— <i>Jon Vanderhoof, MD</i> ■ Understand basic immunology ■ Learn ways to manipulate ■ Review clinical applications
12:30 PM—1:00 PM	POSTERS AND LUNCH
1:00 PM—2:00 PM	<b>BREAKOUT SESSIONS (PLEASE CHOOSE ONE).....60 minutes—1.0</b> ❖ <b>OPTION 1: SPECIAL INTEREST GROUPS</b> ■ IBD ■ Celiac ■ Liver ■ Advance Practice Nursing ■ GI Clinic or Hospital Nursing ■ Endoscopy or Procedures ❖ <b>OPTION 2: A SPECIAL SESSION WITH LORI STOHS (Available for the first 25 who register)</b> What do you do better than 10,000 other people? How can you become more successful and happier in your career and in your life! Join us to learn about your strengths and what you do best every day. This information will help you learn how to use this to save time, be more engaged, a better employee, manager, parent, friend or spouse just by honoring who you are!

2:00 PM—2:30 PM	<b>CAPSULE ENDOSCOPY—<i>Cary Qualia MD</i> ..... 30 minutes—0.5</b> <ul style="list-style-type: none"> <li>■ Review the indications for obtaining a capsule endoscopy</li> <li>■ Discuss the findings on a capsule endoscopy</li> <li>■ Discuss how it may change therapy</li> <li>■ Discuss complications associated</li> </ul>
2:30 PM—2:45 PM	<b>BREAK</b>
2:45 PM—3:15 PM	<b>CELIAC-NUTRITIONAL REQUIREMENTS OF CELIAC DISEASE—<i>Anne Lee, EdD, RDN, LD</i>..... 30 minutes—0.5</b> <ul style="list-style-type: none"> <li>■ Review iron, folate, fiber, vitamins and minerals</li> </ul>
3:15 PM—4:15 PM	<b>ARE YOU SMARTER THAN A 5TH GRADER!!!! <i>Norberto Rodriguez-Baez MD</i>..... 60 minutes—1.0</b>
4:15 PM—4:30 PM	<b>CONFERENCE WRAP UP.....15 minutes—0.25/Total-7.25</b>
4:30 PM—5:15 PM	<b>APGNN COMMITTEE MEETINGS</b> <i>Patient Family Ed/Program/Clinical Practice/Research and Publications/Membership/Newsletter</i>
5:30 PM—7:00 PM	<b>APGNN SOCIAL EVENT</b>

## SATURDAY OCTOBER 25, 2014

8:00 AM—8:30 AM	<b>REGISTRATION/BREAKFAST</b>
8:30 AM—10:00 AM	<b>IBD—UP AND COMING THERAPIES</b> <b>—FECAL TRANSPLANT FOR IBD AND <i>C. DIFFICILE</i>—<i>Suchitra Hourigan MD</i>..... 90 minutes—1.5</b> <ul style="list-style-type: none"> <li>■ Identify the indication for fecal transplant</li> <li>■ Review the process for fecal transplant</li> <li>■ Discuss risk associated with fecal transplant</li> </ul> <b>—COMPLICATIONS OF CURRENT IBD THERAPY &amp; NEW MEDICATIONS IN IBD—<i>Edwin deZoeten MD</i></b> <ul style="list-style-type: none"> <li>■ Discuss new medications in the treatment of IBD</li> <li>■ Review potential risk of biologics</li> <li>■ Review cancer risk of therapies</li> <li>■ Discuss complications of immunomodulators</li> </ul>
10:00 AM—11:00 AM	<b>MEDICAL CHILD ABUSE—<i>Lynne Myers BSN, RN, CPN</i>..... 60 minutes—1.0</b> <ul style="list-style-type: none"> <li>■ Define medical child abuse</li> <li>■ Identify how to recognize and report medical child abuse</li> <li>■ Review case study</li> </ul>
11:00 AM—11:30 AM	<b>AWARDS ANNOUNCEMENTS</b>
11:30 AM—12:00 PM	<b>POSTER 101—<i>Meghan Dalton CPNP</i>..... 30 minutes—0.5</b> <ul style="list-style-type: none"> <li>■ For RN and APN</li> <li>■ Review the steps of creating a poster from beginning to end</li> <li>■ Idea, components of a poster, making a template</li> </ul>
12:00 PM—1:30 PM	<b>LUNCH</b>
1:30 PM—2:30 PM	<b>ZEBRAS—INTERESTING CASE PRESENTATIONS..... 60 minutes—1.0</b>
2:30 PM—2:45 PM	<b>BREAK</b>
2:45 PM—3:15 PM	<b>FEEDING DIFFICULTIES—<i>Barbara McElhanon MD</i>..... 30 minutes—0.5</b> <ul style="list-style-type: none"> <li>■ Discuss the evaluation of a child with feeding difficulties from start to finish</li> <li>■ Review treatments –old to new</li> </ul>
3:15 PM—3:45 PM	<b>BONE HEALTH FOR THE GI—<i>Maria Mascarenhas MD</i>..... 30 minutes—0.5</b> <ul style="list-style-type: none"> <li>■ Discuss the risk of decreased bone health in Celiac, IBD, Liver</li> <li>■ Discuss concern for long term use of PPI and bone health</li> </ul>
3:45 PM—4:00 PM	<b>CONFERENCE WRAP UP/CE CONTACT HOURS ..... 15 minutes—0.25/Total-5.25</b>

## NASPGHAN NUTRITION SYMPOSIUM FOR DIETITIANS

**FRIDAY OCTOBER 25, 2014**

5:30 PM

## RECEPTION & CELEBRATION OF THE “COUNCIL FOR PEDIATRIC NUTRITION PROFESSIONALS”

## SATURDAY OCTOBER 25, 2014

7:30 AM—8:00 AM BREAKFAST

## 8:00 AM—8:15 AM INTRODUCTIONS

*Praveen Goday MD, Chair, NASPGHAN Nutrition Committee*

8:15 AM—9:05 AM MALNUTRITION

*Beth Smith RD, CNSC, LDN, Children's Hospital of Philadelphia*

**9:05 AM—9:55 AM      GLUTEN-FREE DIETS FOR THE NON-CELIAC PATIENT**

Alessio Fasano MD, Center for Celiac Research and Treatment MassGeneral Hospital for Children

9:55 AM—10:10 AM BREAK

**10:10 AM—11:00 AM      FIBER IN HEALTH AND DISEASE**

*Asim Maqbool MD, Children's Hospital of Philadelphia*

11:00 AM—11:50 AM GROWTH CHARTS

*Sarah Vermilyea MS, RD, CSP, LD, CNSC, ChildServe, Johnston, IA*

11:50 AM—12:30 PM LUNCH

**12:30 PM—1:20 PM      NUTRITION OF VERY LOW BIRTH WEIGHT INFANTS**

Berthold Koletzko MD, Dr. von Hauner Children's Hospital; President, ESPGHAN

**1:20 PM—2:20 PM      HANDS-ON PHYSICAL ASSESSMENT**

- 1 Length/height/knee height
- 2 Triceps skinfold, mid-arm circumference
- 3 Circumference-waist and head
- 4 Muscle-grip measurement and assessment of fat/muscle/edema
- 5 Subjective global assessment

**2:30 PM—3:00 PM      BREAKOUT SESSION #1 (PICK FROM 4 TOPICS BELOW)**

**3:00 PM—3:30 PM      BREAKOUT SESSION #2 (PICK FROM 4 TOPICS BELOW)**

**3:30 PM—4:00 PM      BREAKOUT SESSION #3 (PICK FROM 4 TOPICS BELOW)**

## SESSION CHOICES 1 FOOD PROTEIN INDUCED ENTEROCOLITIS SYNDROME (FPIES)

*Karen Freedle MD and Alexia Beauregard MS, RD, LD, Children's Healthcare of Atlanta*

## 2 MICRONUTRIENT INTERPRETATION

*David Suskind MD, Seattle Children's Hospital*

### 3 PEDIATRIC FEEDING DISORDERS:

## ASSESSING TYPICAL DIETARY FLUCTUATIONS VS. CHRONIC/SEVERE FEEDING PROBLEMS

*William Sharp PhD and Rashelle Berry RD, The Marcus Autism Center, Children's Healthcare of Atlanta*

#### 4 INTESTINAL FAILURE: MEDICAL MANAGEMENT

Conrad Cole MD, Cincinnati Children's Hospital Medical Center

## TEACHING AND TOMORROW 2014

We are pleased to announce the 2014 Pediatric GI Teaching and Tomorrow Program of the North American Society for Pediatric Gastroenterology, Hepatology and Nutrition (NASPGHAN). Our goal is to attract the best and brightest residents to subspecialty training in pediatric gastroenterology, hepatology and nutrition. In order to accomplish this goal, we have created the Teaching and Tomorrow Program. This program brings pediatric residents from North America to our Annual NASPGHAN Meeting to see first-hand the cutting edge basic and clinical science of our subspecialty. This year, the conference will take place October 23—26 in Atlanta. During this period we will also meet with these residents, to share our enthusiasm for pediatric gastroenterology hepatology and nutrition and to offer career guidance.

**WHAT:** Attend NASPGHAN Annual Meeting and Postgraduate Course

**WHERE:** Atlanta, Ga

**ARRIVE:** October 22, 2014 (Evening)

**DEPART:** October 26, 2014

**ELIGIBILITY:** Pediatric Residents with an interest in pediatric gastroenterology, hepatology and nutrition. It is expected that those selected will be the equivalent of a PL-2 resident at the time of the meeting or PL-3 residents considering applying for fellowship to begin in July 2016.

**SUPPORT:** NASPGHAN will provide support by extending a reduced registration fee of \$200 that includes registration for the Postgraduate Course, Annual Meeting and all the Teaching and Tomorrow events. This includes orientation breakfast on Thursday, a luncheon program on Thursday, the reception on Friday and the closing breakfast on Saturday morning. **Participants or sponsoring institutions will be responsible for all travel and hotel costs associated with the meeting.**

NASPGHAN will assist attendees in making double hotel accommodations for those who are interested. Please include your gender, and arrival and departure dates at the bottom of your personal statement. We will need your hotel information no later than August 11 in order to reserve a room for you. After August 11, we will not be able to assist you with room reservations.

**APPLICATION:** Residents should register for the meeting by using the attached registration form or by registering on-line. Once they have registered they will need to send the following Teaching and Tomorrow registration materials to ([naspghan@naspghan.org](mailto:naspghan@naspghan.org)).

- Applicant's CV
- A one page personal statement explaining the applicant's motivation to participate in the Teaching and Tomorrow Program
- Letter from **one** (and only one) of the following: Pediatric Chair, Pediatric Residency Program Director, Pediatric GI Division Director or Pediatric GI Training Program Director attesting that the resident will have clinical coverage allowing them to attend the four day conference.

**DEADLINE:** September 15, 2014

**❖ Early-Bird Registration Deadline: August 13, 2014**

❖ After August 13, Standard Rates apply and fees for Postgraduate Course and Annual Meeting increase by \$50 each per category.

❖ Register online at ([www.naspghan.org](http://www.naspghan.org))

Phone	Fax		
Email (Very Important)			

### THIS PROGRAM COVERS THE POSTGRADUATE COURSE AND ANNUAL MEETING REGISTRATION FEE—\$200.00

❖ Payment Information: ☐ MasterCard ☐ Visa ☐ Discover ☐ American Express

❖ Credit Card #: \_\_\_\_\_ Verification Code#: \_\_\_\_\_ Expiration: \_\_\_\_\_

❖ Make checks (drawn on a US bank in US funds) payable to “**NASPGHAN**”  
Mail or Fax completed form to — **Mail:** NASPGHAN / PO Box 6 / Flourtown, PA 19031 — **Fax:** 215-233-3918

❖ Contact NASPGHAN National Office if further information is needed  
**Phone:** 215-233-0808 — **Fax:** 215-233-3918 — **naspgghan@naspgghan.org** — **www.naspgghan.org**

❖ NASPGHAN Federal Tax ID: 84-126-4996

**ELIGIBILITY:** It is expected that those selected will be the equivalent of a PL-2 resident at the time of the meeting or PL-3 residents considering applying for fellowship to begin in July 2016.

**SUPPORT:** Naspghan will provide support by extending a reduced registration fee of \$200 that includes registration for the Postgraduate Course, Annual Meeting and all the Teaching and Tomorrow events. This includes orientation breakfast on Thursday, a luncheon program on Thursday, the reception on Friday and the closing breakfast on Saturday morning. **Participants or sponsoring institutions will be responsible for all travel and hotel costs associated with the meeting.**

**APPLICATION:** Once you have registered, please send the following Teaching and Tomorrow materials to (**naspgghan@naspgghan.org**).

- Applicant's CV
- A one page personal statement explaining the applicant's motivation to participate in the Teaching and Tomorrow Program
- Letter from **one** (and only one) of the following: Pediatric Chair, Pediatric Residency Program Director, Pediatric GI Division Director or Pediatric GI Training Program Director attesting that the resident will have clinical coverage allowing them to attend the four day conference.

**DEADLINE:** September 15, 2014
