Journal of Pediatric Gastroenterology, Hepatology and Nutrition February 2015 CME Articles

"The Origin of Pediatric Nonalcoholic Fatty Liver Disease"

Learning objectives

- 1. To describe the maternal risk factors for neonatal hepatic steatosis
- 2. To review the course of initiation of fetal liver steatosis.
- 3. To highlight the importance of postnatal nutrition as an opportunity to decrease the risk of development and progression of NAFLD.

"Intestinal Failure—Associated Liver Disease: A Position Paper of the ESPGHAN Working Group of Intestinal Failure and Intestinal Transplantation"

Learning objectives

- 1. Understand the key contributors to the development of IFALD
- 2. Recognize progressive IFALD and decide upon the investigations for IFALD
- 3. Know timely referral to an experienced centre for specialist management

NASPGHAN designates this educational activity for a maximum of 1 AMA PRA Category 1 Credits $^{\text{TM}}$. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Principal Faculty and Credentials

Faculty credentials and disclosures are listed in the Journal articles

Date of Release:

February 1, 2015

Date of Last Revision:

February 1, 2015

Date of Expiration:

February 1, 2017

Necessary Hardware and Software:

Adobe

Compatible Web Browser listed below:

- Internet Explorer version 6.0 or higher
- Mozilla Firefox 1.0 or higher
- Netscape Navigator 6.0 or higher
- Apple Safari

Estimated Time to Complete this Activity:

It is estimated that it will take 1 hour to read the articles and complete the post test.

Method of Physician Participation:

All participants read an article, take a post-test with a minimum of 60% passing score and complete an activity evaluation at the end of the activity before being able to print a certificate of completion.

Policy on Privacy and Confidentiality:

The personal information collected on this evaluation site is used only for our records and is not distributed to any individuals or companies.
