COURSE DESCRIPTION
Timely recognition and optimal treatment of the many life-threatening digestive disorders to be reviewed at this conference remain challenging in clinical practice, thereby presenting the risk of delayed recognition and effective treatment. These challenges are met with state-of-the-art laboratory testing and diagnostic imaging, transplantation and other surgical interventions, and adjunctive or independent medical therapies. Medical therapies to be reviewed at this conference include novel drugs, enteral and parenteral nutrients in current practice plus safe means of delivering these products and services.

This conference shall endeavor to organize these topics into a rational, practical, and timely presentation for practitioners who are likely to encounter these patients.

LEARNING OBJECTIVES
- Facilitate early referrals of patients by pediatric specialists for comprehensive evaluations for liver and intestine disorders for optimizing clinical outcomes and facilitating comprehensive pre-transplant evaluations when needed.
- Analyze the indications for pediatric liver and intestine transplantation and their impact on transplant outcomes.
- Compare and contrast the efficacy of different treatment modalities in the management of transplant recipients with the goal of optimizing patient outcomes.
- Optimize intravenous versus enteral vitamin and mineral supplementation during liver and intestinal rehabilitation, before or after transplant.

TARGET AUDIENCE
This conference is intended for pediatric gastroenterologists, neonatologists, intensivists, surgeons, emergency physicians, pediatric hematologists and oncologists, pediatric nurse practitioners and physician assistants, pediatric dietitians, home health providers serving pediatric populations, and pediatric case managers.

CME ACCREDITATION
MedStar Georgetown University Hospital is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

CREDIT DESIGNATION
MedStar Georgetown University Hospital designates this live activity for a maximum of 6.0 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

DISCLOSURE OF FINANCIAL RELATIONSHIPS WITH ANY COMMERCIAL INTEREST
As a provider accredited by the ACCME, it is the policy of MedStar Georgetown University Hospital to require that everyone who is in a position to control the content of an educational activity disclose all relevant financial relationships with any commercial interest prior to the educational activity.

The ACCME considers relationships of the person involved in the CME activity to include financial relationships of a spouse or partner. Any individual who refuses to disclose relevant financial relationships will be disqualified from participating in the CME activity. For an individual with no relevant financial relationship(s), the participants must be informed that no conflicts of interest or financial relationships exist.

Agenda

7:15 AM  Registration and Continental Breakfast

7:50 AM  Welcome and Introduction

T. Fishbein, K. Khan

SESSION I: TUMORS AND OTHER CHRONIC ABDOMINAL DISORDERS

8:00 AM  Overview of Hepatoblastoma

C. Lawlor

8:25 AM  Surgical Management of Hepatoblastoma: Cytoreduction & Outcomes

T. Fishbein, T. Attard

8:50 AM  Familial Adenomatous Polyposis in Childhood and Adolescence

C. Desai, T. Attard

9:15 AM  Panel Discussion: Q&A

T. Attard, C. Desai, C. Lawlor

9:30 AM  Update on Chronic Pancreatitis and Pancreatic Islet Cell Transplantation

K. Khan, C. Desai

9:55 AM  Panel Discussion: Q&A

C. Desai, K. Khan

10:10 AM  Coffee Break & Visit the Exhibits

SESSION II: TOPICS IN ANATOMIC AND FUNCTIONAL INTESTINAL FAILURE

10:40 AM  Review: Management of Infant Short Bowel Syndrome

J. Hawksworth, N. Yazigi, K. Chapman

11:05 AM  Congenital Diarrhea Syndrome

M. Miqdady

11:30 AM  Surgical Management Strategies for Chronic Intestinal Diseases

C. Lawlor

11:55 AM  Endoscopy in Intestinal Failure and Transplantation

K. Khan

12:15 PM  Panel Discussion

S. Kaufman, K. Khan, C. Matsumoto, M. Miqdady

12:30 PM  Lunch and Visit the Exhibits

SESSION III: SYSTEMIC METABOLIC DISEASES AND THE LIVER

1:30 PM  The Clinical Spectrum of Liver Disease in Metabolic Disorders

N. Yazigi

1:55 PM  Metabolic Candidates for Liver Transplantation

K. Chapman, K. Khan

2:20 PM  Liver Transplantation for Metabolic Diseases

J. Hawksworth, K. Khan

2:45 PM  Panel Discussion

K. Chapman, J. Hawksworth, N. Yazigi

3:00 PM  Closing Remarks
